CHAIRMAN'S STATEMENT

- 11% increase in profit before tax
- 4% increase in year on year interest income
- 7% growth in interim dividend per share
- Additional special dividend of 15p per share paid
- 13% increase in EPS

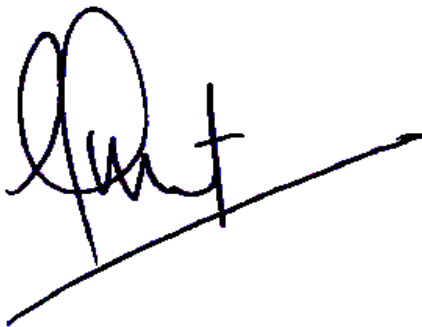

I am pleased to be able to report that we have built on excellent midyear results and had a record-breaking year in spite of the market uncertainty caused by the political environment which prevailed throughout most of 2019. Trade volumes year on year up to 31 December 2019 have fallen, but the changes we made to the business model during 2018 have led to an increase in fixed income. This action was necessary to offset increases in our fixed cost base driven by recent regulatory and legal changes throughout the industry.

The performance towards the end of 2019 and early 2020 bodes well for the future. The election result at the end of 2019 has added an element of political certainty that has been lacking since the initial vote to leave the EU, and market volumes are typically higher in times of political stability. I feel we are seeing light at the end of the tunnel.

As I have stated before we are well positioned to capture the financial gains of increased trade volumes - being predominately IT focused overheads will not increase proportionately. This will lead to increased commission and interest income as cash under administration balances are positively correlated with trading volumes. Increased volumes will also enable our commercial and Model B clients to thrive. The business remains highly cash generative which will enable us to continue returning cash to shareholders through the regular quarterly dividends and as reserves permit, special dividend payments assuming funds are not required for working capital or acquisitions.

As always, I would like to thank Jarvis staff for their continued hard work.

Andrew Grant
Chairman

A handwritten signature in black ink, appearing to read 'Andrew Grant', written over a horizontal line.

STRATEGIC REPORT

Key developments and outlook

The spectre of Brexit has weighed heavily on the stock market throughout 2019. Whilst the FTSE 100 has posted a 12% gain for the year, trade volumes have remained muted which is reflected in our trade numbers and commission figures. Our cash under administration has remained largely the same year on year, as has interest income. The main driver of our increase in profitability has been the increase in fee income from the new tariffs introduced in June 2018.

We see a positive outlook for the business following the election at the end of 2019 which at least provided certainty that Brexit would happen, if not the exact form it would take. We hope this will lead to an increase in trade volumes, and therefore commission income. Increased volumes also lead to increased cash under administration as more cash flows through the business for investment.

We do not see interest rates changing significantly from their current rates, however higher balances of cash under administration will further improve interest income.

We continue to be affected by more stringent regulatory requirements across the industry which adds to staff numbers and the fixed cost base through increased software development, licensing costs and data feeds. Where we feel it is justified, we will attempt to pass these costs onward.

Performance

Results and quarterly dividends (pence per share)

The consolidated profit for the year after income tax amounted to £3,910,730 (2018: £3,481,959). The company paid quarterly dividends per share of 26.25p during the year (2018: 24.5p), plus an additional special dividend of 15p per share. In line with dividend policy, the company has paid quarterly interim dividends throughout the year, and will continue to do so through 2020. No final dividend is proposed by the board.

Annual Dividend (pence per share)

* In 2015 in addition to total quarterly dividends of 16.5p per share a 10p special dividend was also paid.

** In 2019 in addition to total quarterly dividends of 26.25p per share a 15p special dividend was also paid

Dividend growth reflects the trend of the growth of profit after tax. Management will retain sufficient profit to meet regulatory

capital requirements and for reinvestment in the infrastructure of the firm to keep our client offering up to date.

Profit before tax - £m

The increase in profit before tax this year has been produced by increases in fixed fee revenue which were implemented in June 2018. These offset the increases in costs that began occurring in the prior year due to the adoption of MIFID II. The drivers of profitability remain the same – increasing retail and institutional clients which in turn increase trade volumes and cash under administration. The business model contains scalability and further increases in client numbers can be accommodated without like for like increases in the cost base.

Trade Volumes - average daily volume

As with 2018, 2019 was a year of significant political uncertainty from which suppressed trading volumes throughout the entire period. We anticipate volumes will increase in 2020 as Brexit uncertainty dissipates.

Cash under administration - annual average balance

Cash under administration is a function of client numbers and trade volumes. Jarvis profitability is linked to cash under administration and management attempts to improve the balance by increasing client numbers. In spite of the prevailing conditions of 2019 cash under administration has increased marginally year on year.

JARVIS SECURITIES PLC

Group structure

The principal trading subsidiary of the group is Jarvis Investment Management Ltd. For regulatory reasons relating to administration and cost, Jarvis Securities plc is the AIM traded parent, holds the assets of the group and is responsible for activities that fall outside the scope of regulated investment business. Jarvis Investment Management Ltd is a Member of The London Stock Exchange (LSE) and ISDX markets and is authorised and regulated by the Financial Conduct Authority (FCA). This status is essential for the trading activities of the group and therefore compliance with the Rules of both the LSE and FCA is of paramount importance. The group provides retail execution-only stockbroking, ISA and SIPP investment wrappers, savings schemes, and financial administration, settlement and custody services in all these areas to other stockbrokers and investment firms as well as individuals.

Capitalisation and financing

Jarvis Securities plc had 11,182,750 Ordinary 1p shares in issue at the end of the year. 254,000 of these shares are held in treasury. These shares are admitted to trading on AIM. The business is highly cash generative and requires no debt or external financing. The board balance the use of cash between maintaining sufficient reserves for regulatory requirements, the stated dividend policy, and investment in the infrastructure and future wellbeing of the business.

EPS and P/E ratio

The principal measures used by investors to compare and rate publicly traded companies are the earnings per share (EPS) and the relative multiple to these earnings of the current share price (the price earnings or P/E ratio). Therefore the board must have regard to these measures in order to maximise returns to investors. EPS is a result of dividing profit after tax by the average number of shares in issue throughout the period. The P/E ratio is the average share price during the year divided by EPS. The average share price during the year was 459p (2018: 478p). The P/E ratio is largely a product of the market price of the shares in the Company and hence is largely beyond the control of the board. Certain actions can be taken where this is perceived by the board to be out of synchronisation with comparable firms, such as the purchase of shares to hold in treasury or for cancellation.

These measures are important to investors and hence need to be given high regard. The board will continue its efforts to maintain the P/E ratio to reflect its belief that Jarvis should have a premium rating to its competitors because of its yield and differentiated business model.

2019 EPS: 35.82p

2018 EPS: 31.79p

Rate of change: 13%

2019 P/E ratio: 12.82

2018 P/E ratio: 15.04

Principal risks and uncertainties

The following are the main risks to the Jarvis Securities plc group that are considered and monitored by the board.

Revenue risk

The Jarvis business model has several income streams. These are primarily commission income, interest income and fixed fee income. As such the business is not overly reliant on any one particular revenue stream. The board are also committed to increasing the diversity of revenue streams as opportunities arise and without compromising the focus of the business through undue complexity.

Regulatory risk

Changes in the regulatory environment resulting in additional costs or significant system or product amendments.

The firm operates in the "execution only" area of the financial services environment and as such is less exposed to some of the more complex and onerous areas of the regulatory environment. As part of ongoing risk management, the firm's risk appetite results in the avoidance of entry into areas that are complex from a regulatory perspective.

Competitor risk

The firm operates in a competitive industry and has many larger competitors in the execution only retail and institutional market. Management monitor other firms' prices and product offerings to ensure that Jarvis remains competitively priced. Management also strives to provide high service levels to our clients in order to retain and encourage new clients to join us.

Cybercrime

Loss of data, client assets or corporate assets through breaches of our IT infrastructure would result in financial loss to the firm and reputational damage.

The board acknowledge the growing threat of cybercrime and maintain up to date industry standards in IT security. The firm's IT infrastructure is externally audited to the Payment Card Industry Data Security Standard, policies and procedures are in place to minimise the risk of critical data loss, employees must complete ongoing training in money laundering and fraud prevention and all computers are installed with malware protection.

Interest rate risk

The interest rate environment has a significant effect on the earnings of the company. An increase in interest rates would improve profitability as it would improve income earned on cash under administration. Conversely, further reductions in interest rates will reduce profitability.

JARVIS SECURITIES PLC

Economic risk

Market sentiment directly impacts on bargain numbers transacted and hence commission income for the company. Volumes are currently volatile month on month and are driven largely by investors risk appetite.

As stated above the firm has several income streams. The firm also has a low fixed cost base and most of the costs associated with trade volumes are marginal. Therefore in months where commission income is lower variable costs are also lower.

The firm is UK centric and will remain largely unaffected by the practical ramifications of Brexit.

Reputational risk

As the custodian of the wealth of our clients, any damage to the firm's reputation could result in the loss of clients and withdrawal of assets administered by Jarvis. The firm adopts procedures that minimise the risk of fraudulent activity occurring either within the firm or by a third party.

Operational risk

The main risk Jarvis is exposed to in its day to day activities is settlement risk, and all procedures within the firm are designed to mitigate this risk where possible. There may be instances where errors occur which leave the firm unintentionally exposed to market risk as a result of an error in its operating processes. Given the volume of transactions being processed these errors are extremely infrequent. When they do occur they are reviewed to see if further process enhancements can be made to minimise future errors. The board recognise that new clients increase the scope for operational risk as new processes are sometimes required to match client requirements. A key element of the take on of any client is ensuring that such processes are operationally robust and do not exceed the group's appetite for risk.

Key personnel risk

Loss of key personnel is a threat to any skills-based business.

The firm attempts to set remuneration at competitive market levels and empower key employees so that they enjoy working at Jarvis. All employment contracts for key staff members include sufficient notice periods for replacements to be recruited and trained.

Third party reliance risk

Any take over at the London Stock Exchange could result in major unanticipated changes for Jarvis and its commercial clients.

The board monitor any proposed changes to the pricing structure of The London Stock Exchange and calculate the impact on our profitability in advance. In the event that there was an anticipated adverse impact we would have sufficient time to renegotiate contracts with commercial clients.

JARVIS SECURITIES PLC

DIRECTORS' REPORT

The directors submit their report and audited financial statements for the year ended 31 December 2019.

Statement of directors' responsibilities

The directors are responsible for preparing the Strategic Report and the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRSs') as adopted by the EU and applicable law.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the group and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company and group's transactions and disclose with reasonable accuracy at any time the financial position of the company and group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

They are further responsible for ensuring that the Strategic Report and the Report of the directors and other information included in the Annual Report and Financial Statements is prepared in accordance with applicable law in the United Kingdom.

The maintenance and integrity of the Jarvis Securities plc web site is the responsibility of the directors.

Legislation in the United Kingdom governing the preparation and dissemination of the accounts and the other information included in annual reports may differ from legislation in other jurisdictions.

Provision of information to auditors

So far as each of the directors is aware at the time the report is approved:

- there is no relevant audit information of which the company's auditors are unaware, and
- the directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

Principal activities

The principal activities of the group members consolidated within these accounts are:

Jarvis Securities plc	Group holding company
Jarvis Investment Management Ltd	Member of The London Stock Exchange and ISDX markets Outsourced investment administration and Model B settlement services provider
Dudley Road Nominees Limited	Dormant nominee company
JIM Nominees Limited	Dormant nominee company
Galleon Nominees Limited	Dormant nominee company

Auditor Independence

The directors have appointed an audit committee, one of whose roles is to ensure the independence of the group's auditors. The auditors are considered to be independent in accordance with the profession's ethical standards.

JARVIS SECURITIES PLC

The Board

The board of Jarvis comprises three executive directors and one non-executive director, who is considered to be independent. The board meets quarterly and all current board members attend all board meetings. The board considers its composition appropriate for the size of the company. The executive directors are full time and the non-executive director is part time. The non-executive director is expected to commit up to one day a month and any additional days as is necessary to fulfil his responsibilities to the company. The number of board meetings held in the year is four and there has been 100% attendance by all the directors.

The board comprises individuals who have differing backgrounds within the financial services industry. The board considers that the mix of skills is appropriate to deliver the strategy of the company. Board members have various resources at their disposal such as consultants and memberships of professional bodies to ensure they remain abreast of developments within the industry. Directors keep their skills up to date by attending appropriate conferences and, training seminars and the use of online training tools. The board has had no specific external advisers other than its Nomad, auditors and lawyers during the year. Biographical details of each Director can be found on the group's investor website.

The objectives of the board are aligned with the strategy and business model designed to promote long term shareholder value stated in the first principle of the code. These objectives are measured through the financial performance of Jarvis. Of specific concern when evaluating the board's performance are earnings per share, dividend per share, and profit before tax. Board evaluation takes place annually at the end of the financial year. Should a board member resign, they are contractually required to serve a notice period deemed to be adequate to ensure succession planning can occur.

The board are aware that in order to maximise shareholder value, it is essential that the company maintain a reputation as a market leading service provider as well as exercising their tasks with a high degree of skill and diligence. The culture is focussed around carrying out our role for customers in an efficient manner at an acceptable price. Credit is given for identifying and resolving errors and there is an on-going focus on improving processes. The board implements these principles through the appraisal process and recruitment and reward is partially linked to compliance.

Compliance Committee

The Compliance Committee meets monthly and has been established by the Board to provide oversight of Jarvis Investment Management Limited's compliance obligations resulting primarily from the permissions granted by its regulator the Financial Conduct Authority but also other regulatory bodies such as the ICO. The Board has provided detailed terms of reference for The Compliance Committee, the summary duties and responsibilities of which are to review the arrangements established by management for compliance with regulatory requirements and assess the impact of regulatory developments and make recommendations to the Board. The Compliance Committee comprises The Finance Director, The Managing Director, The Non-Executive Director, The Head of Compliance and the Head of CASS.

Audit Committee

The Audit Committee of the company comprises the Non-Executive Director and the Chairman of the company and meets as required. Graeme McAusland is chairman of the Audit Committee. The Audit Committee is responsible for ensuring that the group's financial performance is properly monitored, controlled and reported. It also meets the auditors and reviews reports from the auditors relating to the Financial Statements and internal control systems. The Audit Committee meets once a year with the auditors, without the general executive board members present.

Remuneration Committee

The Remuneration Committee comprises the Non-Executive Director and the Chairman of the company. The committee is responsible for reviewing and recommending the remuneration of directors and executives and remuneration policy as a whole within the group.

Going concern basis

The group has considerable financial resources together with long term contracts with all its significant suppliers as well as a diversified income stream. The group does not have any current borrowing or any anticipated borrowing requirements. As a consequence, the directors believe that the group is well placed to manage its business risks successfully despite the current uncertain economic outlook. The directors review the liquidity of the group in accordance with the FCA's prescribed liquidity framework prior to the approval of any dividends.

The directors have a reasonable expectation that the group has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Future developments

Future developments are discussed in the Chairman's statement.

Research and Developments

During the year the group incurred software and website development costs of £46,253 (2018: 67,598), these amounts have been capitalised within the website class of intangible assets.

JARVIS SECURITIES PLC

Purchase of own shares

During the period 50,000 Ordinary Shares (2018: nil) were purchased by the company and held in treasury, and 27,300 (2018:nil) were sold from treasury.

Financial Instruments

Details of our financial risk mitigation policy are included in note 26.

Dividends

Dividends are discussed in the Strategic Report.

Subsequent Events

On 11th February 2020, a first quarterly dividend of 6.75 pence per share was declared, to be paid on 12th March 2020. The directors consider there are no other subsequent events.

Registered number

The registered number of the company is 5107012.

Directors

The directors who served during the year were as follows:-

Andrew J Grant	Chairman and Chief Executive Officer
Nick J Crabb	Business Development and Client Services Director
Jolyon C Head	Finance Director
Graeme S McAusland	Non-Executive Director

Auditor

A resolution to re-appoint Crowe U.K LLP as auditor to the company will be proposed at the annual general meeting.

QCA Compliance

Since September 2018 all AIM companies have been required to comply with a recognised corporate governance code. Jarvis Securities Plc has chosen the Quoted Companies Alliance ("QCA") Corporate Governance Code published in April 2018 for this purpose. High standards of corporate governance are a priority for the board, and details of how Jarvis Securities Plc addresses key governance principles defined in the QCA code are set out below.

1. Establish a strategy and business model which promote long-term value for shareholders

Jarvis Securities Plc ("Jarvis") is the 100% owner of Jarvis Investment Management Limited ("JIM"), an FCA regulated entity that provides an execution only stock broking service to retail clients, and a back-office settlement and custody service for regulated commercial clients. JIM is the only trading entity owned by Jarvis. The strategy of JIM is based around the following key areas: maintaining an exemplary reputation within the industry for the safeguarding of client assets, growing profit through increasing market share through the provision of a cost-effective service, enhancing operational capabilities with ongoing investment in IT infrastructure, and maintaining prudent levels of capital within the business. Jarvis has a clearly defined dividend policy which the board are able to maintain through the execution of JIM's business strategy.

2. Seek to understand and meet shareholder expectations

The board have been and remain committed to a progressive dividend policy of regular quarterly dividend payments. Jarvis maintains its own investor website to avoid any confusion with the share dealing platform of JIM. A dedicated email address is provided on the website for investor queries. The contact phone number of the managing director and finance director are given on RNS announcements issued. Jarvis holds an annual general meeting to which all members are invited and at the end of the AGM time is set aside specifically to allow informal questions from attending members to any board member.

3. Take into account wider stakeholder and social responsibilities and their implications for long-term success

In addition to shareholders, the directors believe the main stakeholder groups are the clients and employees of JIM. Through its regulatory obligations JIM is required to understand the needs of its clients and ensure they are treated fairly. Client feedback is encouraged via the dealing desk where staff are always available to listen and act upon concerns. It is in JIM's commercial interests to understand the needs of employees and invest in them through development and training. Having skilled employees and maintaining low staff turnover is critical to the operation of a business working in a complex industry. JIM dedicates significant time to understanding and acting on the needs and requirements of each of these groups.

4. Embed effective risk management, considering both opportunities and threats, throughout the organisation

Principal risks and uncertainties and how these are mitigated are detailed in the strategic report on page 2. JIM promotes a culture of transparency in order that when errors occur they can be systematically reviewed. Risk and Internal Control is a standing item on the quarterly JIM board meeting agenda. Risks identified by the board are discussed with the Company's auditors. Risks are also documented within the ongoing ICAAP assessment, which is formally signed off by the board on an annual basis. Controls are tested by the auditors during the annual review to ensure the robustness of the assessments put in place.

5. Maintain the board as a well-functioning, balanced team led by the chair

The board of Jarvis comprises three executive directors and one non-executive director, who is considered to be independent. The non-executive director is Graeme McAusland. The board meets quarterly and all current board members attend all board meetings. The board considers its composition appropriate for the size of the company.

The executive directors are full time and the non-executive director is part time. The non-executive director is expected to commit up to one day a month and any additional days as is necessary to fulfil his responsibilities to the Company.

The number of board meetings held in the year is four and there has been 100% attendance by all the directors.

In addition to the board, Jarvis also maintains compliance, audit and remuneration committees, the purpose of each is detailed above.

Ensure that between them the directors have the necessary up-to-date experience, skills and capabilities

The board comprises individuals who have differing backgrounds within the financial services industry. The board considers that the mix of skills is appropriate to deliver the strategy of the Company. Board members have various resources at their disposal such as auditors, consultants and memberships of professional bodies to ensure they remain abreast of developments within the industry.

Directors keep their skills up to date by attending appropriate conferences and, training seminars and the use of online training tools.

The board has had no specific external advisers other than its Nomad, auditors and lawyers during the year.

Biographical details of each Director can be found on the investor website.

6. Evaluate board performance based on clear and relevant objectives, seeking continuous improvement

The objectives of the board are aligned with the strategy and business model designed to promote long term shareholder value stated in the first principal of the code. These objectives are measured through the financial performance of Jarvis. Of specific concern when evaluating the board's performance are earnings per share, dividend per share, and profit before tax. Board evaluation takes place annually at the end of the financial year. Should a board member resign, they are contractually required to serve a notice period deemed to be adequate to ensure succession planning can occur.

7. Promote a corporate culture that is based on ethical values and behaviours

The board are aware that in order to maximise shareholder value, it is essential that the company maintain a reputation as a market leading service provider as well as exercising their tasks with a high degree of skill and diligence. The culture is focussed around carrying out our role for customers in an efficient manner at an acceptable price. Credit is given for identifying and resolving errors and there is an on-going focus on improving processes.

The board implements these principles through the appraisal process and recruitment and reward is partially linked to compliance.

JARVIS SECURITIES PLC

8. Maintain governance structures and processes that are fit for purpose and support good decision-making by the board

The board of Jarvis and JIM comprises the same individuals. The two boards hold separate quarterly board meetings. The board of JIM maintain responsibility for the strategy, stakeholder relationships, regulation and financial reporting of JIM. The board of Jarvis are responsible for corporate governance, financial reporting and dividend policy. The key board roles covering both entities are as follows:

- Chairman & Chief Executive - responsible for the strategy and for the day to day management.
- Business Development Director – responsible for strategic implementation, on boarding of new regulated commercial clients, relationship management with clients and key suppliers.
- Finance Director – responsible for financial reporting and analysis and CASS oversight.
- Non Executive Director – responsible for reviewing strategic decisions made by executive directors and ensuring the board act in the interest of independent shareholders at all times.

In addition to the board, Jarvis maintains an audit committee and remuneration committee, the roles of which are detailed above.

The Company believes its governance structure is appropriate for its size.

9. Communicate how the company is governed and is performing by maintaining a dialogue with shareholders and other relevant stakeholders

On the Company's website shareholders can find all historical RNS announcements, interim reports and annual reports. Annual Reports and Annual General Meeting Circulars are posted directly to all registered shareholders or nominees and results of Annual General Meeting votes are also published on the Company's website. The Board recognises the AGM as an important opportunity to meet shareholders. The Directors are available to listen to the views of shareholders informally immediately following the AGM. As described earlier, the company also maintains an email address for investor queries and the phone number of the managing director and finance director are on RNS announcements.

The results of all future Annual General Meetings will be made available on the investor website.

BY ORDER OF THE BOARD

.....
Andrew J Grant – Chief Executive Officer

JARVIS SECURITIES PLC

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF JARVIS SECURITIES PLC

Opinion

We have audited the financial statements of Jarvis Securities plc (the "Parent Company") and its subsidiaries (the "Group") for the year ended 31 December 2019, which comprise:

- the group income statement for the year ended 31 December 2019;
- the group statement of comprehensive income for the year ended 31 December 2019;
- the group and parent company statements of financial position as at 31 December 2019;
- the group and parent company statements of cash flows for the year then ended;
- the group and parent company statements of changes in equity for the year then ended; and
- the notes to the financial statements, including a summary of significant accounting policies.

The financial reporting framework that has been applied in the preparation of the financial statements is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

In our opinion:

- the financial statements give a true and fair view of the state of the Group's and of the Parent Company's affairs as at 31 December 2019 and of the Group's profit for the period then ended;
- the group financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union;
- the parent company financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union as applied in accordance with the provisions of the Companies Act 2006; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you when:

- The directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- The directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the group's or the parent company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

JARVIS SECURITIES PLC

Overview of our audit approach

Materiality

In planning and performing our audit we applied the concept of materiality. An item is considered material if it could reasonably be expected to change the economic decisions of a user of the financial statements. We used the concept of materiality to both focus our testing and to evaluate the impact of misstatements identified.

Based on our professional judgement, we determined overall materiality for the group financial statements as a whole to be £175,000 (FY18 £270,000), based on 5% of Group profit before tax.

We use a different level of materiality ('performance materiality') to determine the extent of our testing for the audit of the financial statements. Performance materiality is set based on the audit materiality as adjusted for the judgements made as to the entity risk and our evaluation of the specific risk of each audit area having regard to the internal control environment.

Where considered appropriate performance materiality may be reduced to a lower level, such as, for related party transactions and directors' remuneration.

We agreed with the Audit Committee to report to it all identified errors in excess of £8,750 (2018: £8,100). Errors below that threshold would also be reported to it if, in our opinion as auditor, disclosure was required on qualitative grounds.

Overview of the scope of our audit

As part of designing our audit, we determined materiality and assessed the risk of material misstatement in the financial statements. In particular, we looked at where the directors made employed significant judgements and estimates. We also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

This is not a complete list of all risks identified by our audit.

<i>Key audit matter</i>	<i>How the scope of our audit addressed the key audit matter</i>
<i>Income recognition</i> Income recognition is a key audit matter as income is significantly material to the group and is an important determinant of the group's profitability. As part of our assessment of the group's income streams we evaluated that there is a significant risk for a material misstatement to occur in the commission and fee income resulting from error or fraud.	<i>Retail commission</i> To address the significant risk identified we have independently recalculated retail commission income based on data extracted from the front office system and commission rates for the period. The integrity of the data extracted was verified by testing a sample of commission income back to client instructions. <i>Other income</i> We tested the remaining commission and fee income by agreeing a sample back to supporting documentation.

JARVIS SECURITIES PLC

Our audit procedures in relation to these matters were designed in the context of our audit opinion as a whole. They were not designed to enable us to express an opinion on these matters individually and we express no such opinion.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion based on the work undertaken in the course of our audit

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report and strategic report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In light of the knowledge and understanding of the Group and the Parent Company and their environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the Parent Company, or returns adequate for our audit have not been received from branches not visited by us; or
- the Parent Company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of the directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 5, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

JARVIS SECURITIES PLC

In preparing the financial statements, the directors are responsible for assessing the Group's and Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Parent Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

JARVIS SECURITIES PLC

NOTES TO THE FINANCIAL STATEMENTS

1. Basis of preparation

The company has adopted the requirements of International Financial Reporting Standards (IFRS) and IFRIC interpretations endorsed by the European Union (EU) and those parts of the Companies Act 2006 applicable to companies reporting under IFRS. The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets at fair value through profit or loss.

These financial statements have been prepared in accordance with the accounting policies set out below, which have been consistently applied to all the years presented.

New standards, not yet effective

There are no standards that are issued but not yet effective that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

Significant judgements and estimates

The areas involving a high degree of judgement or complexity, or areas where the assumptions and estimates are significant to the consolidated financial statements, are disclosed in Note 21.

Going concern

The group's business activities, together with the factors likely to affect its future development, performance and position are set out in the Strategic Report on pages 2 to 4. The financial position of the group, its cash flows, liquidity position and borrowing facilities are described within these financial statements. In addition, note 26 of the financial statements includes the group's objectives, policies and processes for managing its capital; its financial risk management objectives; details of its financial instruments and hedging activities; and its exposure to credit risk and liquidity risk.

The group has considerable financial resources, long term contracts with all its significant suppliers and a diversified income stream. The group does not have any current borrowing or any anticipated borrowing requirements. As a consequence, the directors believe that the group is well placed to manage its business risks successfully despite the current uncertain economic outlook.

The directors have a reasonable expectation that the group has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

2. Accounting policies

(a) IFRS 15 'Revenue from Contracts with Customers'

Commission – the group charges commission on a transaction basis. Commission rates are fixed according to account type. When a client instructs us to act as an agent on their behalf (for the purchase or sale of securities) our commission is recognised as income on a point in time basis when the instruction is executed in the market. Our commission is deducted from the cash given to us by the client in order to settle the transaction on the client's behalf or from the proceeds of the sale in instance where a client sells securities.

Management fees – these are charged quarterly or bi-annually depending on account type. Fees are either fixed or are a percentage of the assets under administration. Management fees income is recognised over time as they are charged using a day count and most recent asset level basis as appropriate.

Interest income - this is accrued on a day count basis up until deposits mature and the interest income is received. The deposits pay a fixed rate of interest. In accordance with FCA requirements, deposits are only placed with banks that have been approved by our compliance department. Interest income is recognised over time as the deposits accrue interest on a daily basis.

JARVIS SECURITIES PLC

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

2. Accounting policies (continued)

(b) Basis of consolidation

Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date on which control ceases. The group financial statements consolidate the financial statements of Jarvis Securities plc, Jarvis Investment Management Limited, JIM Nominees Limited, Galleon Nominees Limited and Dudley Road Nominees Limited made up to 31 December 2019.

The Group uses the purchase method of accounting for the acquisition of subsidiaries. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The cost of acquisition over the fair value of the Group's share of identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the Group's share of the net assets of the subsidiary acquired, the difference is recognised in the income statement.

Intra-group sales and profits are eliminated on consolidation and all sales and profit figures relate to external transactions only. No profit and loss account is presented for Jarvis Securities plc as provided by S408 of the Companies Act 2006.

(c) Property, plant and equipment

All property, plant and equipment is shown at cost less subsequent depreciation and impairment. Cost includes expenditure that is directly attributable to the acquisition of the items. Depreciation is provided on cost in equal annual instalments over the lives of the assets at the following rates:

Leasehold improvements	-	33% on cost, or over the lease period if less than 3 years
Motor vehicles	-	15% on cost
Office equipment	-	20% on cost
Land & Buildings	-	Buildings are depreciated at 2% on cost. Land is not depreciated.
Right of use asset	-	Straight line basis over the lease period

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the income statement. Impairment reviews of property, plant and equipment are undertaken if there are indications that the carrying values may not be recoverable or that the recoverable amounts may be less than the asset's carrying value.

(d) Intangible assets

Intangible assets are carried at cost less accumulated amortisation. If acquired as part of a business combination the initial cost of the intangible asset is the fair value at the acquisition date. Amortisation is charged to administrative expenses within the income statement and provided on cost in equal annual instalments over the lives of the assets at the following rates:

Databases	-	4% on cost
Customer relationships	-	7% on cost
Software developments	-	20% on cost
Website	-	33% on cost

Impairment reviews of intangible assets are undertaken if there are indications that the carrying values may not be recoverable or that the recoverable amounts may be less than the asset's carrying value.

(e) Goodwill

Goodwill represents the excess of the fair value of the consideration given over the aggregate fair values of the net identifiable assets of the acquired trade and assets at the date of acquisition. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Any negative goodwill arising is credited to the income statement in full immediately.

JARVIS SECURITIES PLC

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

2. Accounting policies (continued)

(f) Deferred income tax

Deferred income tax is provided in full, using the liability method, on differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. The deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction, other than a business combination, that at the time of the transaction affects neither accounting or taxable profit or loss. Deferred income tax is determined using tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries except where the timing of the reversal of the timing difference is controlled by the Group and it is probable that the temporary differences will not reverse in the foreseeable future.

(g) Segmental reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. The directors regard the operations of the Group as a single segment.

(h) Pensions

The group operates a defined contribution pension scheme. Contributions payable for the year are charged to the income statement.

(i) Trading balances

Trading balances incurred in the course of executing client transactions are measured at initial recognition at fair value. In accordance with market practice, certain balances with clients, Stock Exchange member firms and other counterparties are included as trade receivables and payables. The net balance is disclosed where there is a legal right of set off.

(j) Leases

The following was applicable in 2018. Costs in respect of operating leases are charged on a straight line basis over the lease term in arriving at the profit before income tax. Where the company has entered into finance leases, the obligations to the lessor are shown as part of borrowings and the rights in the corresponding assets are treated in the same way as owned fixed assets. Leases are regarded as finance leases where their terms transfer to the lessee substantially all the benefits and burdens of ownership other than right to legal title.

(k) Investments

Investments held for trading

Under IFRS investments held for trading are recognised as financial assets measured at fair value through profit and loss.

Investments in subsidiaries

Investments in subsidiaries are stated at cost less provision for any impairment in value.

(l) Foreign exchange

The group offers settlement of trades in sterling as well as various foreign currencies. The group does not hold any assets or liabilities other than in sterling and converts client currency on matching terms to settlement of trades realising any currency gain or loss immediately in the income statement. Consequently the group has no foreign exchange risk.

(m) Share capital

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from proceeds, net of income tax. Where the company purchases its equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income tax), is deducted from equity attributable to the company's equity holders until the shares are cancelled, reissued or disposed of. Where such shares are subsequently sold or reissued, any consideration received, net of any directly incremental transaction costs and the related income tax effects, is included in equity attributable to the company's equity holders.

(n) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

JARVIS SECURITIES PLC

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

2. Accounting policies (continued)

(o) Current income tax

Current income tax assets and/or liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting periods, that are unpaid at the balance sheet date. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate based on the taxable profit for the year.

(p) Dividend distribution

Dividend distribution to the company's shareholders is recognised as a liability in the group's financial statements in the period in which interim dividends are notified to shareholders and final dividends are approved by the company's shareholders.

(q) IFRS 9 'Financial Instruments'

The group currently calculates a "bad debt" provision on customer balances based on 25% of overdrawn client accounts which are one month past due date and are not specifically provided for. Under IFRS 9 this assessment is required to be calculated based on a forward - looking expected credit loss ('ECL') model, for which a simplified approach will be applied. The method uses historic customer data, alongside future economic conditions to calculate expected loss on receivables

(r) IFRS 16 'Leases'

The Group has applied the modified retrospective approach in respect of IFRS 16 which came into effect on 1 January 2019.

The result of this is the cumulative effect of the application is recognised in retained earnings at 1 January 2019 and no restatement of the 2018 comparatives has been made i.e. the previous reported results are under IAS 17.

The impact of transition to IFRS 16 is the Group recognised a right-of-use asset and lease liability on the significant operating leases. The right-of-use asset is initially measured at cost and subsequently at cost less any accumulated depreciation and impairment losses, and adjusted for certain premeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implied in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate.

The Group has applied judgement to determine the lease term for contracts with options to renew or exit early.

The carrying amount of right-of-use assets recognised was £404,863 at the lease start date of 27 September 2017. The carrying amount of right of use assets was £303,647 at 1 January 2019 and £222,675 at 31 December 2019 with depreciation of £80,973 recognised in administrative expenses.

The present value of the lease payments was £309,247 at 1 January 2019 with a finance charge of £8,393 being recognised in finance costs.

The retained earnings include a £5,600 transitional adjustment in respect of the modified retrospective approach.

A finance charge of 3% APR is used to calculate the finance cost of the lease.

3. Group revenue

The revenue of the group during the year was wholly in the United Kingdom and the revenue of the group for the year derives from the same class of business as noted in the Strategic Report.

	2019	2018
	£	£
Gross interest earned from treasury deposits, cash at bank and overdrawn client accounts	4,232,976	4,081,633
Commissions	3,320,160	3,754,725
Fees	2,968,670	2,214,209
	<u>10,521,806</u>	<u>10,050,567</u>

4. Segmental information

All of the reported revenue and operational results for the period derive from the group's external customers and continuing financial services operations. All non-current assets are held within the United Kingdom.

The group is not reliant on any one customer and no customer accounts for more than 10% of the group's external revenues.

As noted in 2 (g) the directors regard the operations of the group as a single reporting segment on the basis there is only a single organisational unit that is reported to key management personnel for the purpose of performance assessment and future resource allocation.

Goodwill represents the difference between the consideration paid and the fair value of assets acquired on the acquisition of a business in 2003. In accordance with the transitional provisions in IFRS 1 the group elected not to apply IFRS 3 retrospectively to past business combinations. Therefore the goodwill balance represents an acquired customer base, that continues to trade with the group to this day and, more fundamentally, systems, processes and a registration that dramatically reduced the group's dealing costs. These systems and the registration contributed significantly to turning the group into the low cost effective provider of execution only stockbroking solutions that it is today. The key assumptions used by the directors in their annual impairment review are that the company can benefit indefinitely from the reduced dealing costs and the company's current operational capacity remains unchanged. The recoverable amount of the goodwill has been assessed using the value in use method and there is significant headroom based on this calculation. There are no reasonable changes in assumptions that would cause the cash generating unit value to fall below its carrying amount.

JARVIS SECURITIES PLC

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

20. Financial Instruments

The group's principal financial instruments comprise cash, short terms borrowings and various items such as trade receivables, trade payables etc. that arise directly from operations. The main purpose of these financial instruments is the funding of the group's trading activities. Cash and cash equivalents and trade and other receivables are categorised as held at amortised cost, and trade and other payables are classified as held at amortised cost. Other than investments held for trading all financial assets and liabilities are held at amortised cost and their carrying value approximates to their fair value.

The main financial asset of the group is cash and cash equivalents which is denominated in Sterling and which is detailed in note 14. The group operates a low risk investment policy and surplus funds are placed on deposit with at least A rated banks or equivalent at floating interest rates.

The group also holds investments in equities.

21. Critical accounting estimates and judgements

The group makes estimates and assumptions concerning the future. These estimates and judgements are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year relate to goodwill, intangible assets and bad debts.

The group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in Note 2 (e). These calculations require the use of estimates. The assumptions and sensitivity relating to the impairment tests are detailed in note 10.

The group considers at least annually whether there are indications that the carrying values of intangible assets may not be recoverable, or that the recoverable amounts may be less than the asset's carrying value, in which case an impairment review is performed. These calculations require the use of estimates. The group also calculates the implied levels of variables used in the calculations at which impairment would occur.

22. Immediate and ultimate parent undertaking

There is no immediate or ultimate controlling party.

23. Related party transactions

The company has a lease with Sion Properties Limited, a company controlled by a director of the company, for the rental of 78 Mount Ephraim, a self-contained office building. The lease has an annual rental of £87,500, being the market rate on an arm's length basis, and expires on 26 September 2027.

During the year Jarvis Investment Management Limited paid Jarvis Securities Plc £7,000 (2018: £7,000) for rental of a disaster recovery site.

Jarvis Securities plc owed Jarvis Investment Management Limited £751,208 (2018: £668,822) at year end.

During the year, directors, key staff and other related parties by virtue of control carried out share dealing transactions in the normal course of business. Commissions for such transactions are charged at various discounted rates. The impact of these transactions does not materially or significantly affect the financial position or performance of the company. At 31 December 2019, these same related parties had cash balances of £1,307,212 (2018: £288,458) and interest was earned during the year amounting to £2,203 (2018: £2,063). In addition to cash balances other equity assets of £40,119,621 (2018: £36,381,672) were held by JIM Nominees Ltd as custodian.

During the year Jarvis Securities Plc charged £3,844,388 (2018: £3,671,242) to Jarvis Investment Management Limited for use of intellectual properties.

24. Capital commitments

As of 31 December 2019, the company had no capital commitments (2018: nil).

JARVIS SECURITIES PLC

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

25. Fair value estimation

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the company is the current bid price. The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values.

26. Financial risk management objectives and policies

The directors consider that their main risk management objective is to monitor and mitigate the key risks to the group, which are considered to be principally credit risk, compliance risk, liquidity risk and operational risk. Several high-level procedures are in place to enable all risks to be better controlled. These include detailed profit forecasts, cash flow forecasts, monthly management accounts and comparisons against forecast, regular meetings of the full board of directors, and more regular senior management meetings.

The group's main credit risk is exposure to the trading accounts of clients. This credit risk is controlled via the use of credit algorithms within the computer systems of the subsidiary. These credit limits prevent the processing of trades in excess of the available maximum permitted margin at 100% of the current portfolio value of a client.

A further credit risk exists in respect of trade receivables. The group's policy is to monitor trade and other receivables and avoid significant concentrations of credit risk. Aged receivables reports are reviewed regularly and significant items brought to the attention of senior management.

The compliance risk of the group is controlled through the use of robust policies, procedures, the segregation of tasks, internal reviews and systems controls. These processes are based upon the Rules and guidance notes of the Financial Conduct Authority and the London Stock Exchange and are overseen by the compliance officer together with the management team. In addition, regular compliance performance information is prepared, reviewed and distributed to management.

The group aims to fund its expansion plans mainly from existing cash balances without making use of bank loans or overdraft facilities. Financial risk is therefore mitigated by the maintenance of positive cash balances and by the regular review of the banks used by the group. Other risks, including operational, reputational and legal risks are under constant review at senior management level by the executive directors and senior managers at their regular meetings, and by the full board at their regular meetings.

The group derives a significant proportion of its revenue from interest earned on client cash deposits and does not have any borrowings. Hence, the directors do not consider the group to be materially exposed to interest rate risk in terms of the usual consideration of financing costs, but do note that there is a risk to earnings. Given the current Bank of England base rate is near its lowest level since its foundation in 1694, and the business has remained profitable, this risk is not considered material in terms of a threat to the long term prospects of the group.

The capital structure of the group consists of issued share capital, reserves and retained earnings. Jarvis Investment Management Limited has an Internal Capital Adequacy Assessment Process ("ICAAP"), as required by the Financial Conduct Authority ("FCA") for establishing the amount of regulatory capital to be held by that company. The ICAAP gives consideration to both current and projected financial and capital positions. The ICAAP is updated throughout the year to take account of any significant changes to business plans and any unexpected issues that may occur. The ICAAP is discussed and approved at a board meeting of the subsidiary at least annually. Capital adequacy is monitored daily by management. Jarvis Investment Management Limited uses the simplified approach to Credit Risk and the standardised approach for Operational Risk to calculate Pillar 1 requirements. Jarvis Investment Management Limited observed the FCA's regulatory requirements throughout the period. Information disclosure under Pillar 3 of the Capital Requirements Directive is available from the group's websites.

The directors do not consider that the group is materially exposed to foreign exchange risk as the group does not run open currency positions beyond the end of each working day.

JARVIS SECURITIES PLC

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

26. Financial risk management objectives and policies (continued)

As of 31 December 2019, trade receivables of £131,923 (2018: £115,184) were past due and were impaired and partially provided for. The amount of the provision was £105,470 as at 31 December 2019 (2018: £84,995). The individually impaired receivables relate to clients who are in a loan position and who do not have adequate stock to cover these positions. The amount of the impairment is determined by clients' perceived willingness and ability to pay the debt, legal judgements obtained in respect of, charges secured on properties and payment plans in place and being adhered to. Where debts are determined to be irrecoverable, they are written off through the income and expenditure account. The group does not anticipate future write offs of uncollectable amounts will be significant as the group now imposes much more restrictive rules on clients who utilise extended settlement facilities.
